## About Nazareth College

Nazareth College's academic strengths cross an unusually broad spectrum of 60 majors, including education, health and human services, management, the fine arts, music, theater, math and science, foreign languages, and the liberal arts. The coeducational, religiously independent, classic campus in a charming suburb of Rochester, N.Y., challenges and supports 2,000 undergrads and 800 graduate students. Nazareth is recognized nationally for its Fulbright global student scholars and commitment to civic engagement. Rigorous programs, an uncommon core, experiential learning, career skills, and a global focus prepare graduates for not just one job, but for their life's work.

Nazareth is the only Rochester-based college or university to offer the full complement of allied health professional programs through its visionary School of Health and Human Services.

This enables Nazareth to create an educational environment that emphasizes interprofessional collaboration in both learning and delivery of services. Today, generations of Nazareth graduates, known for their compassionate care and deep subject expertise, which is built upon a liberal arts foundation, contribute significantly to the region's health care workforce.
